## Introduction

BuiltWith Pty Ltd, like any other company is exposed to potential risks that could disrupt or destroy critical business functions and/or the production and delivery of technical services. Our strategy for continuing business in the event of an incident is to ensure and to continue critical business functions, production and delivery of technology services.

## Scope

The purpose of the business continuity policy is to ensure that all business activities can be kept at normal performance following an incident that has the potential to disrupt or destroy the company.

## Statement of Policy

BuiltWith maintains an up to date business continuity plan (BCP) securely shared amongst all stakeholders in the business that provides plain English documentation for the continuation of operations of BuiltWith Pty Ltd.

## Policy Leadership Manager

Andrew Rogers (andrew@builtwith.com) is designated as the key stakeholder responsible for ensuring policy compliance.

## Verification of Policy Compliance

BC Policy compliance verification is required bi-annually and is facilitated by the Policy Leadership Manager.
